

Mathematics 100 Calculus 1 Fall, 2018

Instructor: George Ballinger
Office: Ewing 260
E-mail: ballinger@camosun.bc.ca
Website: georgeballinger.ca (click the [MATH 100](#) link for course information)
Telephone: 250-370-3116
Timetable:

Time	Monday	Tuesday	Wednesday	Thursday	Friday
8:30 am - 9:20 am					
9:30 am - 10:20 am					
10:30 am - 11:20 am	Office Hour E260	Office Hour E260	Office Hour E260	Office Hour E260	Office Hour E260
11:30 am - 12:20 pm	MATH 100-004 Room Y219	MATH 100-004 Room Y219	MATH 100-004 Room Y219	MATH 100-004 Room Y219	MATH 100-004 Room Y219
12:30 pm - 1:20 pm	MATH 100-003 Room Y219	MATH 100-003 Room Y219	MATH 100-003 Room Y219	MATH 100-003 Room Y219	MATH 100-003 Room Y219
1:30 pm - 2:20 pm					
2:30 pm - 3:20 pm		A&S Chairs Meeting			
3:30 pm - 4:20 pm					

Important Dates:

September 4	First day of class
September 18	Fee deadline
September 18	Course Add/Drop deadline
October 8	Thanksgiving Day (no class)
October 18	"ShakeOut" earthquake preparedness drill at 10:18am
November 7	Withdrawal deadline
November 12	Remembrance Day observed (no class)
December 7	Last day of class
December 10-15, 17-18	Final exam period

Calendar Description: For mathematics and science students. Topics include limits, derivatives of algebraic, trigonometric, logarithmic and exponential functions, applications of differentiation and the Fundamental Theorem of Calculus. Students will complete some assignments using Maple. [4 Credits]

*(Source: Camosun College Calendar
camosun.ca/learn/calendar/current/web/math.html#MATH100)*

Prerequisites: B in Pre-calculus 12, Principles of Math 12, or MATH 115; or A in MATH 107; or assessment.

Note about Credit: Only one of MATH 100 or MATH 108 may be used toward a Camosun credential.

Exit Grade:

A grade of at least C (60%) is required when this course is used as a prerequisite for entry into MATH 101, MATH 126, STAT 218 or any other Camosun course.

Textbook:

Ron Larson and Bruce Edwards, *Calculus of a Single Variable*, 11th Edition, Nelson (Cengage), 2018.

Course Content:**Chapters and Sections**

- P. Preparation for Calculus
 - P.1 Graphs and Models
 - P.2 Linear Models and Rates of Change
 - P.3 Functions and Their Graphs
 - P.4 Review of Trigonometric Functions
- 1. Limits and Their Properties
 - 1.1 A Preview of Calculus
 - 1.2 Finding Limits Graphically and Numerically
 - 1.3 Evaluating Limits Analytically
 - 1.4 Continuity and One-Sided Limits
 - 1.5 Infinite Limits
- 2. Differentiation
 - 2.1 The Derivative and the Tangent Line Problem
 - 2.2 Basic Differentiation Rules and Rates of Change
 - 2.3 Product and Quotient Rules and Higher-Order Derivatives
 - 2.4 The Chain Rule
 - 2.5 Implicit Differentiation
 - 2.6 Related Rates
- 3. Applications of Differentiation
 - 3.1 Extrema on an Interval
 - 3.2 Rolle's Theorem and the Mean Value Theorem
 - 3.3 Increasing and Decreasing Functions and the First Derivative Test
 - 3.4 Concavity and the Second Derivative Test
 - 3.5 Limits at Infinity
 - 3.6 A Summary of Curve Sketching
 - 3.7 Optimization Problems
 - 3.8 Newton's Method
 - 3.9 Differentials
- 4. Integration
 - 4.1 Antiderivatives and Indefinite Integration
 - 4.2 Area
 - 4.3 Riemann Sums and Definite Integrals
 - 4.4 The Fundamental Theorem of Calculus
 - 4.5 Integration by Substitution
- 5. Logarithmic, Exponential, and Other Transcendental Functions
 - 5.1 The Natural Logarithmic Function: Differentiation
 - 5.2 The Natural Logarithmic Function: Integration
 - 5.3 Inverse Functions
 - 5.4 Exponential Functions: Differentiation and Integration
 - 5.5 Bases Other Than e and Applications
- 6. Differential Equations
 - 6.2 Growth and Decay
 - 6.3 Separation of Variables and the Logistic Equation
- 8. Integration Techniques and Improper Integrals
 - 8.6 Numerical Integration

Learning Outcomes:

The Intended Learning Outcomes for this course, as approved by the Education Council, are as follows. Upon completion of this course the student will be able to:

1. Find the limit of elementary functions as the independent variable approaches some finite value or approaches infinity.
2. Define continuity.
3. Find the derivative of simple functions using the definition.
4. Find the derivative of functions (polynomial, trigonometric, logarithmic and exponential functions) using the product, quotient and chain rule.
5. Find the derivative using implicit differentiation.
6. Solve problems involving rates of change.
7. Find relative and absolute extrema of functions.
8. Sketch graphs of functions identifying such features as relative extrema, intervals where the function is increasing and decreasing, points of inflection, intervals where the function is concave up and concave down, and asymptotes.
9. Solve problems that involve maximizing or minimizing some variable associated with the problem.
10. Solve equations using Newton's method.
11. Find the area under a curve using the limit of the area of a set of approximating rectangles.
12. Evaluate a definite and an indefinite integral of polynomial, trigonometric, logarithmic and exponential functions using the Fundamental theorem of Calculus.
13. Use the Mean Value Theorem of integrals to find the mean value of a continuous function.
14. Evaluate integrals using the method of substitution.
15. Evaluate definite integrals using the trapezoidal rule and Simpson's rule.
16. Solve elementary differential equations using the method of separation of variables.

College Services:

Camosun offers a variety of health and academic support services including counselling, disability support, learning skills, library, sexual violence support & education, and writing centre. For more information see camosun.ca/services.

A&S Math Lab:

Ewing 224: This drop-in centre is freely available for your use to work on math homework and to seek help from the instructional assistant. Hours are posted on the door or online at camosun.ca/services/help-centres/#MATH.

Emergency Support:

If you or someone you know requires immediate, urgent, or emergency support (e.g. illness, injury, thoughts of suicide, sexual assault, etc.), SEEK HELP. See camosun.ca/about/mental-health/emergency.html or camosun.ca/services/sexual-violence/get-support.html#urgent.

College Policies:

College policies are posted online at camosun.ca/about/policies. Education and academic policies include, but are not limited to:

- Academic Progress
- Admission
- Course Withdrawals
- Involuntary Health and Safety Leave of Absence
- Medical/Compassionate Withdrawal
- Prior Learning Assessment
- Sexual Violence and Misconduct
- Standards for Awarding Credentials
- Student Ancillary Fees
- Student Appeals
- Student Conduct
- Student Penalties and Fines

It is your responsibility to become familiar with the content of College policies.

Academic Integrity: The Department of Mathematics and Statistics has prepared a handout called [Student Guidelines for Academic Integrity](#) to help you interpret college policies involving student conduct, academic dishonesty, plagiarism, etc. It is your responsibility to become familiar with the contents of the document and the college policies it references.

Calculator Policy: As per department policy, the only calculator permitted for use on tests and the final exam is the Sharp EL-531 (or EL-510R) scientific calculator. No other calculator or any other electronic device including cell phones, electronic translators, smartwatches, iPods, etc. is allowed.

Homework: There will be periodic assignments to be handed in for marking. Collaboration with your classmates is permitted, but you must submit your own work. LATE ASSIGNMENTS WILL NOT BE ACCEPTED.

Maple Labs: Maple labs will take place in the computer lab Ewing 115 on the following Tuesdays: Sep 11, Sep 25, Oct 9, Oct 23, Nov 6, and Nov 20.

Tests: If you miss a test for a legitimate reason such as illness, accident or family affliction, you should notify me *as soon as possible* and provide supporting documentation. There will be no "make-up" tests. In the event of an excused absence, the mark from your final exam, or relevant subset thereof, will replace your test mark.

Final Exam: A comprehensive, 3-hour final exam will take place during the final exam period of December 10-15, 17-18. The specific date, time, and location will be announced on or about October 19. You must write the final exam at the scheduled time as per Camosun College's policy on final examinations. See camosun.ca/learn/calendar/current/procedures.html#academic.

Grade Calculation: The final grade will be calculated according to the following breakdown:

Assignments: 15%*
Maple Labs: 5%
Term Tests: 30%
Final Exam: 50%

* *Note:* The lowest assignment mark will be dropped when calculating the assignment average. This allows you to miss one assignment without penalty.

Grade Scale: Final letter grades are assigned as follows:

0-49	50-59	60-64	65-69	70-72	73-76	77-79	80-84	85-89	90-100
F	D	C	C+	B-	B	B+	A-	A	A+

For information on Camosun College's grading policy, see policy E-1.5 online at camosun.ca/about/policies/policies.html#education.
