

Mathematics 101 Calculus 2 Winter, 2019

Instructor: George Ballinger
Office: Ewing 260
E-mail: ballinger@camosun.bc.ca
Website: georgeballinger.ca (click the [MATH 101](#) link for course information)
Telephone: 250-370-3116
Timetable:

Time	Monday	Tuesday	Wednesday	Thursday	Friday
8:30 am - 9:20 am	MATH 251-X03 Room Y227	MATH 251-X03 Room Y227	MATH 251-X03 Room Y227	MATH 251-X03 Room Y227	MATH 251-X03 Room Y227
9:30 am - 10:20 am	MATH 101-003 Room Y227	MATH 101-003 Room Y227	MATH 101-003 Room Y227	MATH 101-003 Room Y227	MATH 101-003 Room Y227
10:30 am - 11:20 am					
11:30 am - 12:20 pm	Office Hour E260	Office Hour E260	Office Hour E260	Office Hour E260	Office Hour E260
12:30 pm - 1:20 pm					
1:30 pm - 2:20 pm	MATH 101-002 Room Y227	MATH 101-002 Room Y227	MATH 101-002 Room Y227	MATH 101-002 Room Y227	MATH 101-002 Room Y227
2:30 pm - 3:20 pm		A&S Chairs Meeting			
3:30 pm - 4:20 pm					

Important Dates:	January 7	First day of class
	January 18	Add course deadline
	January 21	Fee deadline
	January 21	Drop course with tuition refund deadline
	February 18	Family Day (no class)
	February 19-22	Reading Break (no class)
	March 13	Withdrawal deadline
	April 12	Last day of class
	April 15-18	Final exam period (part 1 of 2)
	April 19	Good Friday (no exams)
	April 22	Easter Monday (no exams)
	April 23-26	Final exam period (part 2 of 2)

Calendar Description: A continuation of MATH 100. Topics include: inverse and hyperbolic trigonometric functions, applications of integration, integration techniques, L'Hôpital's Rule, improper integrals, infinite series, Taylor series, parametric equations and polar coordinates. ~~Students will complete some assignments using Maple.~~ [4 Credits]

(Source: Camosun College Calendar
camosun.ca/learn/calendar/current/web/math.html#MATH101)

Prerequisites: C in MATH 100 or A in MATH 108.

Exit Grade: A grade of at least C (60%) is required when this course is used as a prerequisite for entry into MATH 220, MATH 226 or any other Camosun course.

Textbook: Ron Larson and Bruce Edwards, *Calculus of a Single Variable*, 11th Edition, Nelson (Cengage), 2018.

Course Content:

Chapters and Sections

5. Logarithmic, Exponential, and Other Transcendental Functions
 - 5.6 Indeterminate Forms and L'Hôpital's Rule
 - 5.7 Inverse Trigonometric Functions: Differentiation
 - 5.8 Inverse Trigonometric Functions: Integration
 - 5.9 Hyperbolic Functions
7. Applications of Integration
 - 7.1 Area of a Region Between Two Curves
 - 7.2 Volume: The Disk Method
 - 7.3 Volume: The Shell Method
 - 7.4 Arc Length and Surfaces of Revolution
 - 7.5 Work
 - 7.6 Moments, Centers of Mass, and Centroids
 - 7.7 Fluid Pressure and Fluid Force
8. Integration Techniques and Improper Integrals
 - 8.1 Basic Integration Rules
 - 8.2 Integration by Parts
 - 8.3 Trigonometric Integrals
 - 8.4 Trigonometric Substitution
 - 8.5 Partial Fractions
 - 8.7 Integration by Tables and Other Integration Techniques
 - 8.8 Improper Integrals
9. Infinite Series
 - 9.1 Sequences
 - 9.2 Series and Convergence
 - 9.3 The Integral Test and p-Series
 - 9.4 Comparisons of Series
 - 9.5 Alternating Series
 - 9.6 The Ratio and Root Tests
 - 9.7 Taylor Polynomials and Approximations
 - 9.8 Power Series
 - 9.9 Representation of Functions by Power Series
 - 9.10 Taylor and Maclaurin Series
10. Conics, Parametric Equations, and Polar Coordinates
 - 10.1 Conics and Calculus
 - 10.2 Plane Curves and Parametric Equations
 - 10.3 Parametric Equations and Calculus
 - 10.4 Polar Coordinates and Polar Graphs
 - 10.5 Area and Arc Length in Polar Coordinates

Learning Outcomes:

The Intended Learning Outcomes for this course, as approved by the Education Council, are as follows. Upon completion of this course the student will be able to:

1. Differentiate and integrate inverse trigonometric, hyperbolic and inverse hyperbolic functions.
2. Use integration to find area, volume, arc length, surface area of revolution, work, moments and centroids.
3. Integrate using parts, trigonometric integrals, trigonometric substitution, partial fractions and tables.
4. Evaluate limits, which have indeterminate forms, and calculate improper integrals.
5. Test a sequence for convergence and explain the difference between convergence of a sequence and convergence of a series.
6. Test series for convergence using the integral test, p-test, comparison tests, alternating series test and ratio test and explain the difference between convergence and absolute convergence.
7. Estimate the error in approximating a series using improper integrals and the alternating series remainder.
8. Calculate Taylor polynomials, power series, Taylor series, and MacLaurin series and estimate the error in an approximation using Taylor's Theorem.
9. Determine the interval of convergence of a power series.
10. Graph and analyze parametric curves and find arc length and surface area in parametric form.
11. Graph and analyze curves given in polar coordinates and determine area and arc length in polar form.

College Services:

Camosun offers a variety of health and academic support services including counselling, disability support, learning skills, library, sexual violence support & education, and writing centre. For more information see camosun.ca/services.

A&S Math Lab:

Ewing 224: This drop-in centre is freely available for your use to work on math homework and to seek help from the instructional assistant. Hours are posted on the door or online at camosun.ca/services/help-centres/#MATH.

Emergency Support:

If you or someone you know requires immediate, urgent, or emergency support (e.g. illness, injury, thoughts of suicide, sexual assault, etc.), SEEK HELP. See camosun.ca/about/mental-health/emergency.html or camosun.ca/services/sexual-violence/get-support.html#urgent.

College Policies:

College policies are posted online at camosun.ca/about/policies. Education and academic policies include, but are not limited to:

- Academic Progress
- Admission
- Course Withdrawals
- Involuntary Health and Safety Leave of Absence
- Medical/Compassionate Withdrawal
- Prior Learning Assessment
- Sexual Violence and Misconduct
- Standards for Awarding Credentials
- Student Ancillary Fees
- Student Appeals
- Student Conduct
- Student Penalties and Fines

It is your responsibility to become familiar with the content of College policies.

Academic Integrity:

The Department of Mathematics and Statistics has prepared a handout called [Student Guidelines for Academic Integrity](#) to help you interpret college policies involving student conduct, academic dishonesty, plagiarism, etc. It is your responsibility to become familiar with the contents of the document and the college policies it references.

Calculator Policy: As per department policy, the only calculator permitted for use on tests and the final exam is the Sharp EL-531 (or EL-510R) scientific calculator. No other calculator or any other electronic device including cell phones, electronic translators, smartwatches, iPods, etc. is allowed.

Homework: There will be periodic assignments to be handed in for marking. Collaboration with your classmates is permitted, but you must submit your own work. LATE ASSIGNMENTS WILL NOT BE ACCEPTED.

Tests: If you miss a test for a legitimate reason such as illness, accident or family affliction, you should notify me *as soon as possible* and provide supporting documentation. There will be no "make-up" tests. In the event of an excused absence, the mark from your final exam, or relevant subset thereof, will replace your test mark.

Final Exam: A comprehensive, 3-hour final exam will take place during the final exam period of April 15-18, 23-26. The specific date, time, and location will be announced on or about February 22. You must write the final exam at the scheduled time as per Camosun College's policy on final examinations. See camosun.ca/learn/calendar/current/procedures.html#academic.

Grade Calculation: The final grade will be calculated according to the following breakdown:

Assignments: 15%*
Term Tests: 35%
Final Exam: 50%

* *Note:* The lowest assignment mark will be dropped when calculating the assignment average. This allows you to miss one assignment without penalty.

Grade Scale: Final letter grades are assigned as follows:

0-49	50-59	60-64	65-69	70-72	73-76	77-79	80-84	85-89	90-100
F	D	C	C+	B-	B	B+	A-	A	A+

For information on Camosun College's grading policy, see policy E-1.5 online at camosun.ca/about/policies/policies.html#education.
